# SKIN DISINFECTANT PRODUCTS

## DERMAWASH

Anti-bacterial body wash for delicate and sensitive skin with chlorhexidine – suitable for infants, children, and patients with skin problems.

## DERMASOAP

Anti-bacterial liquid soap that prevents and eliminates unpleasant odor. DermaSoap is a specialized formula that helps to minimize bacterial load skin.

## DERMASURG

Hand soap with 7.5% povidone iodine that ensures an effective penetrating action, eliminates viruses & bacteria, and doesn't stain the skin.

## HYDROGEN PEROXIDE LIQUID

Oxygen based used for the disinfection and hygiene of the skin.

3% Concentration.

## DERMASEPTIC

Anti-bacterial anti septic liquid disinfectant with full range of action of virus, bacteria, and fungus. It does not stain or irritate the skin, non-toxic and nonflammable. DermaSeptic cleans, deodorize, and disinfect the skin from bacteria, viruses, and fungus leaving it pleasantly soft.

## DERMAXIDINE

Anti-septic liquid disinfectant with chlorhexidine, active agents against gram-positive, gram-negative bacteria. It disinfects your hands quickly without stinging or irritating nor staining the skin.

## DERMATOL GEL

Volatile anti-bacterial gel hand solution, biodegradable and non-poisonous. Highly recommended for the use in hospitals, hotels, and catering areas to eliminate the cross contamination.

## DERMACARE

Liquid anti-bacterial hand soap and wash. Specially formulated for hand washing purposes in hospitals and hotels use.

# MEDICAL SURFACE DISINFECTANTS

## ALCOHOL WIPES

Cleaning and sanitation wipes made of mixture of soft cotton material. Alcohol wipes materials mixture has soft touch and ability to remove and absorb dirt from thermometers probes and other food contact equipment.

## MEDISURF

Liquid disinfectant detergent with 10% quaternary ammonium salts that ensure a broad-spectrum disinfection from fungi, viruses, gram positive gram-negative, and bacteria. It is suitable for the requirements of hygiene and disinfection of hospitals, doctor offices, and nursing rooms. It counters the risk of cross infection and ensures maximum safety in every room and at the hospital.

## MEDITEC

Detergent disinfectant with deodorizing action: fast acting deodorant and persisting disinfectant cleaner. Its special formulation based on synergic action of quaternary ammonium salt with high concentration of isothiazolinone (magnesium chloride) ensure maximum protection from bacteria, fungi, and molds. The association of the detergent and the disinfectant give a strong deodorant action, thanks to non-ionic surfactant with high cleaning effect and strong disinfection agent. The product is easy to use and ensure effective disinfection in all the hospital areas.

## MEDISCALE

Anti-scale with disinfectant action, should be used regularly to prevent the formation of lime scale deposit beside illuminating bacteria and fungi. The special formulation helps to loosen the stubborn scales deposits with no need of scrubbing. It removes soap stains, rust, scales, and fungus, and prevents the formation of the limestone. Leaving the surface more shining. (Can be used on any surface)

# MEDICAL GENERAL CLEANING PRODUCTS

## MEDICOL

An alcohol based disinfectant cleaner for non-invasive medical devices. The high percentage of alcohol associated with the anti-septic chlorhexidine and quaternary ammonium salt, ensures rapid and prolonged protection against of gram positive, gram negative, bacteria, and fungi, and viruses, including HIV, HBV, HCV, and TBC.

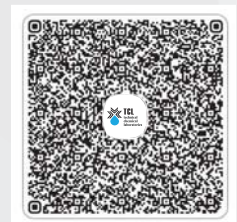

## MEDISURG

Ready to use solution that plays a fast and effective cleaning. Disinfection action for medical devices and invasive surgical instruments, it is acted against gram positive, gram negative, bacteria, molds, fungi, and viruses such as HIV, HBV, HCV, and TBC. Therefore, it is ideal product for cleaning and decontaminating before the auto-clave sterilization for invasive surgical instruments. It gives a highly efficient cleaning for organic materials such as blood, stool, saliva, or organic exudates. Suitable to use for all dental and surgical instruments.
